

The Icon of Taste and Green

Aquaculture Technologies Asia Limited (ATA)

Founded on the successes of research with Kadoorie Agriculture Research Center, The University of Hong Kong. ATA is a unique indoor Aquaculture farm producing premium quality groupers in Hong Kong.

Being grown in state of the art indoor recirculating aquaculture system with well monitored water quality, plus special formulated feed, all ATA fishes post the best tastes of its kind and 100% contaminant free.

We used only verified artificial salts and feeds. Our practices and fish quality have been assured by Agriculture, Fishery and Conservation Department under the "Accredited Fish Farm Scheme".
